

Dwayne Krpan, CFA

Client Portfolio Manager

Dwayne is responsible for managing client relationships, which includes portfolio management and analysis. He is a member of the investment committee and contributes to the investment research process. Additionally, he will support new business efforts through presentations and relationship development.

Prior to joining MainStreet Advisors, Dwayne was a Managing Director at BTC Capital Management, where he was a member of the investment team, which managed the firm's equity strategies. He was also involved in managing key client relationships. Dwayne has over 25 years experience holding a number of roles within the investment management and energy industries.
